

Calculus BC		
Test date and time	Exam Date: May 12 11 AM Pacific Time	
Exam timing	Students will have 25 minutes to read and respond to Question 1, and then 5 minutes to upload their response. After uploading the response to Question 1, students will have 15 minutes to respond to Question 2, with 5 additional minutes to upload their response to Question 2. Once their response to Question 1 has been submitted, they cannot go back to it.	
Questions	Question 1 (25 mins.)	Question 2 (15 mins.)
% of exam weight (rounded)	60%	40%
Question name	Multi-focus free-response question	Multi-focus free-response question
Question description	This question will assess student knowledge and skills developed in 2 or more of the eligible units and topics.	This question will assess student knowledge and skills developed in 2 or more of the eligible units and topics.
Corresponding free-response question (FRQ) type in the course and exam description binder	Question 1 will consist of similar components to traditional AP Calculus exam questions, with minor modifications to enable students to choose to submit either typed or handwritten responses.	Question 2 will consist of similar components to traditional AP Calculus exam questions, with minor modifications to enable students to choose to submit either typed or handwritten responses.
Units eligible for 2020 exam	Units 1-8 + 5 topics in Unit 10 (10.2, 10.5, 10.7, 10.8, and 10.11)	
Units not included in 2020 exam	Unit 9, Unit 10 (except Topics 10.2, 10.5, 10.7, 10.8, and 10.11)	
Other course-specific info	<ul style="list-style-type: none"> • For students who prefer to type their responses on a computer rather than handwriting and photographing, we will provide a “keyboarding tip sheet” in advance of the exam, with suggestions on how to enter various mathematical expressions on a regular keyboard. • Questions on the 2020 AP Calculus BC Exam are designed such that a graphing calculator or other calculator is not required. However, use of a calculator is allowed. Simple (“four-function”) calculators are freely available as apps for computers and phones (i.e. most or all internet-connected devices), and can be installed beforehand for use on the exam. • No arithmetic or calculations will be required beyond what can readily be done with pencil and paper. As always, AP Calculus BC students are advised to submit “unsimplified” numeric answers, in order to avoid risking arithmetical errors not related to calculus. 	
Make-up test date and time	Date: June 1 1 p.m. Pacific Time
