

# AP Calculus Contract

We at St Francis High School are very proud of our exceptional math program. In 2026 the average AP Calculus BC score at St Francis it was **4.??** (rather than 3.92 globally), and the passing rate was **100%** (rather than 82% globally).

Student surveys attribute their success to their hard work and the Practice Exams, including the chance to do a simulated 3.5 hour **Mock Exam**, an “all-in-one-sitting” exam, just like the actual AP Exam. These exams are secure exams with scoring rubrics directly from the College Board, (for classroom use only by Audited AP Instructors only).

My hope is that with this contract, we can focus on the love of learning; seeking to master the Calculus for our future, rather than merely work toward a letter grade.
